COMMISSIONER JANE HENNEY

DOCKET #OOP-1211/CPI

FDA Dockets Management Branch (HFA-305)

5630 Fishers Lane, Room 1060

Rockville, MD 20852

Dear Commissioner Henney,

Aloha. We are a family who contentiously try to eat healthy food. We join with Sierra Club, other Hawaii residents and other citizens of America who are calling for a moratorium on all genetically engineered (GE) foods and crops entering our food supply.

They should NOT be allowed into our foods and supermarkets unless adequate safety-testing proves they are safe for human health & the environment.

We firmly believe the FDA should respond to the legal petition (Docket #00P-1211/CP1) filed on March 21, 2000 and require all GE foods to be labeled and safety-tested for human health and environmental impacts.

Mahalo (Thank You) for putting America's health and well being before corporate profit.
